# FIM IN THE NEWS

Through media partnerships and press release content, over 100 stories about FIM were published online and in print. The total reach amounted to an international audience of 20 million+.

## ATTRACTING BUYERS WITH CUTTING EDGE FEATURES

### The Design Hub Seminars

Leading international design professionals discussed the business of design and explored the future of our region's interiors industry. Topics included Biophilic Design, 2019 Forecasts and the impact interior design can have on our health.

### Souf Falls: A Textile Experience

A wonderful artistic collaboration between UK based Lawton Yarns, Ronel Jordaan in South Africa and Boxmark Leathers. The 'Wool Waterfall' installation, made from over 100 kilograms of wool, flowed over leather rocks in what was an inspirational and interactive feature.

*I came to FIM to meet suppliers, design companies and manufacturers related to interior design materials. Lots of companies have participated and are exhibiting at FIM and I am pleased about visiting the show.*

**ENGR. MOHAMMED H. AL-ALI**  
Group Director, Sahara International Group, FIM Visitor

*We exhibited at FIM because we wanted to showcase our latest products and technologies in furniture fittings, architectural hardware and Dialock – electronic locking systems to developers, fit-out contracts and others working on new projects. The response has been good, we have been really busy with so many visitors coming to our stand even though it is a launch show. It has been a good experience with FIM.*
