Empowering the construction industry in Saudi Arabia

The construction sector continues to be a core driver of Saudi Arabia's economic transformation and Big 5 Construct Saudi plays a vital role in supporting progress toward the Kingdom's Vision 2030 goals.

The 2025 edition was a record-breaking year. Spanning across two-weeks, the event doubled in size and set new benchmarks for both visitor attendance and exhibitor participation. Designed to meet rising market demand and the need for sector-specific focus, the event spanned every phase of the project life cycle.

Now firmly established as Saudi Arabia's largest and most comprehensive construction event, Big 5 Construct Saudi is a powerful business and networking platform, having enabled over \$2.13 billion* in business engagements between exhibitors and buyers in 2025.

By spotlighting innovation, sustainable solutions and the latest in construction technology, the event continues to connect leading local and international brands with key decision-makers, shaping the future of construction across the Kingdom.

In 2026, Big 5 Construct Saudi continues to evolve. While the 2025 edition was held as a single event split across two weeks, we're now moving to two standalone editions – one in January and one in May. This new format allows us to better serve the fast-moving Saudi construction market, offering more focused opportunities to connect, showcase products and do business.

*based on event survey results \$2.13bn is expected to be generated
